Making every child matter ... everywhere

Purely for parents

The screenshot shows the CEOP website in a Windows Internet Explorer browser window. The browser title is "Child Exploitation & Online Protection Centre - internet safety - CEOP - Windows Internet Explorer". The address bar shows "http://www.ceop.gov.uk/". The website header features the CEOP logo and the text "Child Exploitation and Online Protection Centre". A navigation menu includes links for Home, About us, Media centre, Publications, Training, Partnerships, Recruitment, and Contact us. A prominent banner for "A Minute for Madeleine" is displayed, with language options: English, Deutsch, Español, Français, العربية, Italiano, and Português. To the right of the banner is a "missing people" search section. Below the banner, there are several informational boxes: "Keep Updated" (Register for updates), "Specific Appeals" (Help with information), "Safety Centre" (Stay safe online), "Most Wanted" (Locate missing offenders), and "Initiatives and Features" (Latest developments). A "Have fun - Stay safe" section promotes Thinkuknow.co.uk and lists target age groups (5-7, 8-10, 11-16 years old) and roles (Parent/Carer, Teacher/Trainer). A "CEOP REPORT" icon is highlighted with a callout: "This icon is your front door to one stop internet safety advice and help. Our film tells you more." Below this is a "Play Film" button. At the bottom, there are sections for "CEOP Announcements" (dated 17 November 2009, mentioning 8 million young users and Bebo's adoption of the CEOP Report button) and "International Relations" (discussing global response and international networks). The Windows taskbar at the bottom shows the Start button and several open applications: Child Exploitation & O..., PurelyForParentsPres..., CEOPS Consequence..., CEOPS Consequence..., and Microsoft PowerPoint... The system tray shows the time as 20:23.

HOW TO STAY IN CONTROL

HOW TO REPORT

YAP YAP YAP YAP

HELLO

If you're between 11 and 16, you probably know a lot about using the internet.

We've created this space for you to share what we think is good, look at what's not, share experiences of things that have gone wrong and show you ways you can get yourself out of bad situations.

We like to keep things easy, so you'll see we've split different things you can do into sections. You can also watch films here, play games and report if you think someone online is being weird sexually with you.

If you know something we don't, or you want to get involved in making our stuff, [join our panel here](#) or take a minute to fill in our polls. It's all about you.

IM	CHAT	MOBILES	SOCIAL NETWORKING
BLOGS	GAMING	P2P TV	SHARE

Take 5 minutes to help us out...
Be a diamond :)

INTERNET SAFETY TIPS
THINK U KNOW...
Personal stuff includes your messenger id, email address, mobile number and any pictures of you, your family or friends

THINKUKNOW HOME PAGE

REPORT ABUSE
The link below will take you to the CEOP reporting page - this is like a virtual police station where you can make a complaint or report a problem. Your problem will be seen by a police officer, or a specialist investigator and they will contact you to let you know what will happen.

[Report someone who might be abusing or trying to abuse you or someone else](#)

Things to watch out for

Here are some common signs of grooming that you should be aware of. It doesn't mean that your child is being groomed, but signs to look out for if you're worried:

- Excessive use of the computer
- Aggressive behaviour regarding internet usage
- Secretive behaviour
- Change in use of sexual language

Our Advice to Parents

- Know what your children are doing online
- Ask them to teach you to use any applications
- Keep the computer in a family room - this means you can keep more control of what they do (i.e. Webcams)

Our Advice to Parents

- Help your children to understand that they should never give out personal details to online friends - personal information includes:
 - their messenger id
 - email address
 - mobile number and any pictures of themselves,
- If your child receives spam / junk email & texts, remind them never to believe them. reply to them or use them.
